EDUCATION

Brown University

Providence, RI | Expected Graduation, May 2026

Bachelor of Science in Computer Science - Economics

- **Relevant Coursework:** Program Design with Data Structures and Algorithms; Software Engineering; Computer Vision; Computer Systems; Mathematical Microeconomics, Macroeconomics; Making Decisions; Management of Industrial and Nonprofit Organizations.

WORK EXPERIENCE

Brown University, Computer Science Teaching Assistant

Providence, RI | Aug 2023 – Present

- Teaching Assistant for CSCI0150: Object-Oriented Programming, CSCI0200: Program Design with Data Structures and Algorithms, and CSCI0320: Software Engineering.
- Led 3+ weekly office hours and 2-hour lab sessions, supporting 450+ students in mastering Java, Python, and JavaScript concepts through tailored examples and hands-on debugging assistance.
- Directed project management for student software projects, holding weekly mentor meetings to provide formative feedback on stakeholder engagement and user-centered design.

KPMG, Digital Innovation and Consulting Intern

Auckland, New Zealand | July 2023 – Aug 2023 | July 2024 - Aug 2024

- Drove cross-functional collaboration across Consulting, Data Analytics, and Engineering to develop technology-driven solutions for client and internal challenges. Leveraged design-thinking frameworks to drive innovation, leading to the successful creation and implementation of tools.
- Identify customers' unmet needs and market opportunities for tool or feature enhancements through quantitative and qualitative analyses, while assessing the scope of the problem and potential applications to other areas.
- Prototyped technical solutions in Figma, enabling clients to visualize project concepts and identify opportunities for future scalability.

Soul Machines, Business Development Intern

Auckland, New Zealand | Dec 2020 – Aug 2022

- Customized and developed industry-specific AI Digital People demonstrations, empowering business partners with unique resources and facilitating high-level engagements with C-suite executives.
- Generated a database of 300+ qualified leads for the Channel Partnerships team by researching global companies aligned with our strategic goals.
- Enhanced operational efficiency for the Channel Partnerships team by managing Microsoft Office and Salesforce to track lead progress, streamline communications, and optimize reporting.

University of Auckland - Empathic Computing Lab, Research Intern

Auckland, New Zealand | May 2021 – Dec 2021

- Contributed to the development of a comprehensive Literature Review on Communication Models for Collaborative AR/VR systems by analyzing 88+ relevant research papers.
- Collaborated on two projects using Augmented Reality development tools, including Snap AR Lens Studio, resulting in practical AR applications.

LEADERSHIP EXPERIENCE

Brown University Student Government, Vice President

Providence, RI | Sep 2022 – May 2024

- Conceptualized and executed large-scale campus events such as food festivals, student concerts, and formal dances, with event attendance exceeding 3,000 students.
- Led the organization of Brown University's campus-wide Spring Formal Dance, managing an \$80,000 budget, coordinating with existing vendors, establishing relationships with new vendors, and ensuring effective communication with the student body.

Brown University Entrepreneurship Program, Startup @ Brown Member

Providence, RI | Aug 2022 – Sept 2023

- Facilitated growth for local startups and student-initiated ventures through consulting services and financial investment.
- Conducted interviews with alumni entrepreneurs to gather insights and advice on startup development.

TECHNICAL PROJECTS

American Sign Language Translator - Computer Vision Project

- Developed a Computer Vision program to capture images from a camera using OpenCV and perform image classification using a pre-trained VGG model. The prediction is presented to the user, effectively translating ASL gestures into the English alphabet.
- Technologies used: *Python, OpenCV, TensorFlow, VGG16, NumPy, SciPy.*

Brown Books - Book Recommendation Software

- Developed a full-stack web application to recommend books to users based on their personal profiles and preferences. Integrated with the Open Library API for book search and implemented personalized recommendations using machine learning.
- Technologies Used: *React, CSS, Java, Firebase, JSON, Open Library API.*

SKILLS

Programming Tools: Python, Java, C, C++, R, React, LaTeX, GitHub, VS Code, Machine Learning, Graphics.

Skills: Excel, PowerPoint, Word, Adobe Photoshop, Canva, Figma, Capcut, Design Thinking, Graphic Design, Project Management.
